Packed with Speaker

Designed with integrated 2W speaker, this projector combines incredible projection with sound for all kinds of multimedia presentations.

2W

Immersive 3D Viewing

PA502SP HDMI port allows users to project 3D content directly from 3D Blu-ray Players and HDMI-enabled devices such as laptops, tablets, and media players.

Extended Lifespan

Users can choose different lamp mode to extend the lamp's lifespan. When Power Saving setting is on and without any signal input, the projector will automatically switch to Eco Mode and SuperEco Mode

- **Eco Mode:** This projector automatically switches from Normal to Eco Mode when it has been left idle for 5 minutes.
- **SuperEco Mode:** When the projector has not received an input signal for 20 minutes, projected images are dimmed to 70%, extending the lamp's lifespan to 15,000 hours on average.

Automatic Sleep Timer

Forgetting to shut off projectors is a common occurrence, especially in public spaces such as classrooms and meeting rooms. PA502SP's sleep timer allows you to select a period of inactivity that will determine when the projector should put itself into sleep mode automatically.

Auto Power Off

When no signal has been detected, the projector will automatically power off to conserve energy and lamp life.

Instant Activation

Get your projector up and running instantly:  Direct Power On: Simply connect the power cord and begin; the projector will power itself on automatically.

Remote Control Functionality

This projector can be assigned to 8 different remote controls through a single remote control for effortless projector selection, configuration, and operation during lessons or meetings. While a single remote control can command up to 8 different projectors.

Advanced Image Correction

Vertical keystone allows you to correct and adjust distorted images with ease, making installation flexible.

Time Management Assistance

Presenter Timer is an embedded on-screen timer that helps users with time management during presentations. Once a specified time limit has been reached, the projector will signal this with a beep, keeping presentations running on time.

A Simpler Way to Update Projector Software

ViewSonic Projector Software Update is available online and gives you the ability to keep your projector firmware up to date easily and conveniently; no need to take your projector in to a service center for software updates.
