

- Natural Writing Experience for Distance Learning
- Works with Any Paper Type without Restriction.
- Pure Performance from a Real Pen
- Compatible with Education and Design Software
- Compatible with Windows 7 or later, Mac OS 10.11 or later

The ViewSonic® WoodPad Paper is a digital writing pad specifically made for students. You can write on ordinary paper and digitize notes or drawings at the same time. Any paper works with the device, enabling WoodPad Paper to adapt to your writing needs. With 4096 levels of pen pressure sensitivity and $\pm 60^\circ$ tilt angle, you can write smoothly and naturally. Plus, the 7" WoodPad delivers a compact and lightweight design thanks to its use of durable and renewable bamboo. Enjoy the next level of the natural writing experience everywhere at home or school, on trains or in coffee shops, and wherever else you need to learn or create.

A Natural Writing Experience for Distance Learning

WoodPad Paper is designed for students to do written work and notes with pen and paper while simultaneously creating a shareable digital version. Combine the old with the new in a modern writing experience like no other.

Natural Handwriting that Comes from Actual Writing

Learning to write on a drawing tablet can be a challenge. Skip the learning curve. Instead write and draw on real paper with actual ink. With WoodPad Paper's custom notepad, you can take away the guesswork of screen placement.

Easy Progress Tracking from Anywhere

Distance is no longer an obstacle for learners of all ages. With real-time synchronization of digital notes, teachers can track students' progress real-time via digital tools either in-person or through remote learning.

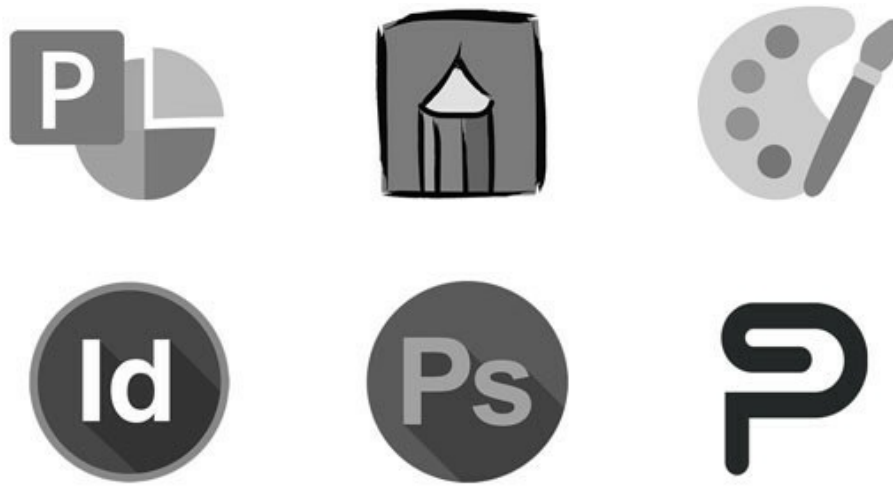

Paper Is Paper

WoodPad Paper works with any paper size or type without restriction. With digitization being based on the special pen/stylus, you can choose paper based entirely on your needs or preferences.

Compatible with Your Favorite Software

Made for easy use, WoodPad Paper integrates with popular software for education, productivity, and design.

Pure Performance from a Real Pen

A high-quality pen combines with a superb stylus to faithfully reproduce physical drawings as digital media with the WoodPad Paper Ink Pen. Enjoy 4096 levels of pressure sensitivity, $\pm 60^\circ$ tilt, and 255 pps pen speed for accurate and fast drawing both on paper and your device.

Easy Ink Refill

The WoodPad Paper's durable design will almost certainly outlast the pen's ink. Quickly and easily replace the ink cartridge with a standard D1 ballpoint pen refill to keep creating for a long time to come.

Battery-free Writing

Never worry about running out of power. WoodPad Paper's Ink Pen runs completely battery-free.

Battery-free

Take It Everywhere... Write Anywhere

The WoodPad Paper is perfectly portable thanks to its rugged design, lightweight bamboo covering, and simple plug-and-play operation. At just 0.165 kg (0.36 lbs), you can take this digital writing tool with you wherever you go. Learn, work, or create on the go.
