

Thin Client 21.5" LED display for more flexible virtual desktops

SD-T225

The SD-T225, 21.5" thin client display is perfect for any organization seeking cost-effective and flexible solutions for their virtual desktop computing needs. Equipped with a TI 1-GHz ARM® Cortex®-A8 CPU and ARM Linux, the SD-T225 is optimized for all major remote networking protocols including Microsoft RDP with RemoteFX, Citrix ICA/HDX, and PCoIP for VMware View—making it a versatile virtualization solution with endless possibilities. With the additional DVI output, flexible support is provided for dual monitor productivity. The eco-friendly design with LED display also consumes up to 80% less energy than standard PC's. ViewSonic thin clients are the smart choice for your virtual desktop deployments.

All-in-one integrated thin client display with PC-like functionality

ViewSonic's SD-T225 is a 22" (21.5" viewable) all-in-one integrated thin client display with TI dual-core processor and ARM Linux OS. As a virtual desktop computing endpoint, it offers users full

Enterprise-class virtualization

Whether running Citrix XenDesktop, VMware View, or Microsoft-based VDI, the SD-T225 is the most flexible solution to handle all of your VDI-based virtualization and traditional computing needs.

SD-T225

PC-like functionality while providing access to data from a networked cloud server.

Dual-display productivity

With an integrated DVI output, this integrated thin client display can be easily attached to a secondary display for increased work productivity.

Flexibility for your peripherals

Versatile connectivity includes all common formats for connecting today's components for business and entertainment. These include dual video (DVI-D and DVI-I), Mic and headphone, 4-USB (V2.0) ports for your peripherals, and RJ45 Ethernet for your 10/100/Gigabit network.

Ergonomic design for comfort and productivity

Full HD 1080p for Superior Pixel Performance

The SD-T225 features Full HD 1920 x 1080 resolution for unbelievable pixel-by-pixel image

SD-T225

With advanced ergonomic features, ViewSonic displays are designed to provide a greater range of adjustment for increased productivity and comfort. Users can reduce eyestrain and physical fatigue with 340-degree swivel, 90-degree pivot, -5 to 21-degree tilt, and 100mm height adjustment options.

performance. You'll experience the most amazing clarity and detail whether it be while working, gaming, or enjoying the latest in multimedia entertainment. A 16:9 widescreen ratio minimizes eye fatigue even after hours of viewing, and is perfectly compatible with multi-window viewing without toggling.

Normal

Full HD

20M:1 MEGA Dynamic Contrast Ratio

20M:1 DCR

Dynamic contrast ratio detects the brightness of an image, and automatically adjusts the backlight to maximize the monitor's color range and contrast.

Dynamic contrast ratio technology enables the accurate reproduction of images, producing vibrant and rich visual effects.

Simplified and secure management

The bundled ViewSonic Device Management Pro software provides IT administrators with a powerful interface for easier, faster deployment. This client-side software also makes it easy to centrally control up to thousands of deployed devices, providing better management of software license renewals, compliance, and security.

Lower energy consumption, lower TCO

With its ultra low 26W typical power consumption in Eco-mode, the SD-T225 integrated thin client display is not only environmentally friendly but also friendly on your electricity bill. The savings of this integrated thin client display can add up to thousands of dollars for large install bases, compared to traditional PC's and monitors.

**Traditional
PC System**
PC + LCD Monitor = 150W

**Integrated

Integrated Thin Client
LED Display = 26W

VESA-Mountable

The SD-T225 features a 100 x 100mm VESA-mountable design that allows you to mount the display on a monitor stand or on a wall, depending on your specific needs. You can easily unscrew the base, and then mount the display on its new stand or wall mount.

Technical Specifications

SYSTEM	CPU Processor	TI DM8148, Cortex A8
	Operating System	Linux
	System Memory	DDR3 1GB (256MBx4)
	Storage Memory	eMMC, 4GB
DISPLAY	Type	21.5" Color active matrix TFT LCD
	Optimum Resolution	1920 x 1080 (WUXGA)
	Brightness	250 cd/m2 (Typ)
	Contrast Ratio	1000 :1 (Typ.) 700:1(min)
	Viewing Angles	170 Deg H and 160 Deg V (Typ.)
	Response Time	Tr+Tf: 5ms(Typ.) / 10ms (Max.)
	Backlight	WLED
	Backlight Life	30000 Hrs (Min)
INPUT/OUTPUT	Touch Panel	Anti-Glare type, Hard-coating (3H)
	USB	USB 2.0 x4
	LAN/Ethernet	RJ45
	Video	DVI-D output x1; RGB x1
	Audio	Microphone in x1; Microphone out x1
	Power	DC In x1
COMPATIBILITY	Speakers	2W x2
	PC	PC Compatibles (from VGA up to 1920 x 1080 Non Interlaced)
POWER	Mac®	Power Mac (up to 1920 x 1080)
	Voltage	AC: 90~240V; 50/60Hz; 3.42A, 65W
ERGONOMICS	Consumption	25.5 W (typ)
	Tilt	21° ~ 25° / 0° ~ -5°
OPERATING CONDITIONS	Temperature (° F / ° C)	32°~95°F / 0°~35°C
	Humidity	15 % ~ 90%, Non-Condensation
