

- Palm sized
- Google GMS certified
- Diverse selection of free apps with Google Play and Chrome Web Store
- Easy IT management with Chrome management console
- Security mechanism with the TPM module and a simple recovery process

The ViewSonic NMP660 Chromebox offers the full range of Chrome OS functions and Google app support. Chromebox is small enough to be easily attached onto ViewSonic® ViewBoard® interactive flat panels for a smart Google classroom, collaborative meeting room, or large format display for signage solution. With the Chrome management console, the NMP660 facilitates an IT manager to deploy and control users, devices, and apps over Chrome OS devices. The ViewSonic NMP660 Chromebox utilises a powerful Intel® Kaby Lake processor to drive 4K content and has 4GB of memory and 32GB of storage. Connectivity ports include: USB 3.0 and 2.0, USB-C, HDMI, RJ45, Audio-Out, and a SD reader.

Integrated Chrome OS

Easy-to-use, lightweight, and fast operating system that works with the cloud or offline. Automatic Google updates ensure worry-free, no-hassle maintenance.

Google Play and Chrome Web Stores

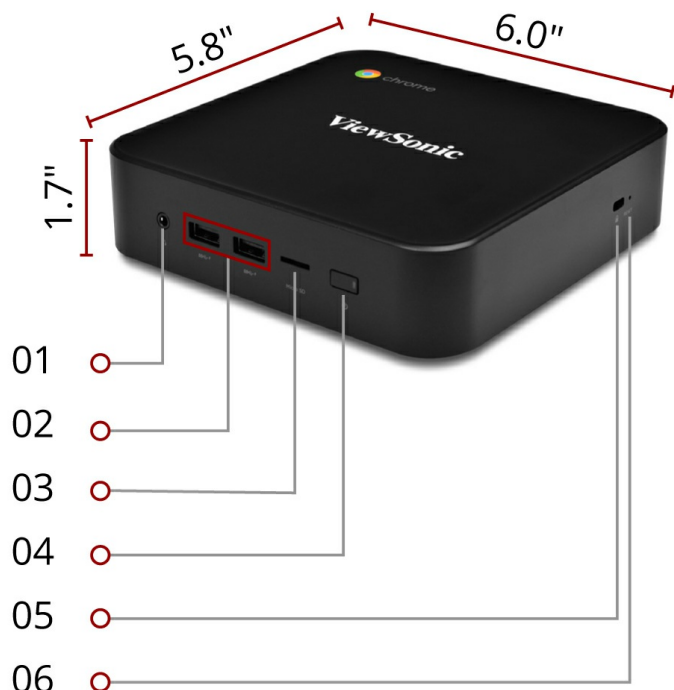

Full Google GMS certification provides instant access to Google Play and Chrome Web Stores for thousands of current apps that share the same libraries as your mobile devices. From entertainment to productivity, enjoy your favourite apps here.

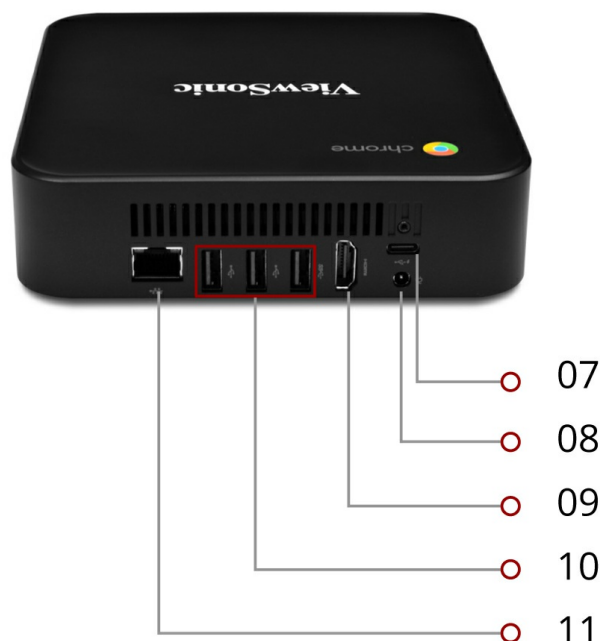

Built-in Security

Have peace of mind with integrated security features including automatic updates, a sandboxing environment, verified boot control, data encryption with a TPM module, and a simple recovery process.
