

Full HD LED display for ultimate MHL multimedia experience

ViewSonic
See the difference™ 

VX2363Smhl-W

The ViewSonic VX2363Smhl-W is a 23" Full HD 1080p display designed for entertainment, gaming, and multimedia applications. An MHL port enables seamless connectivity, and simultaneous battery charging, of MHL-enabled mobile devices to facilitate easy content sharing and mobile gaming on a larger screen. Additional versatile connectivity options include HDMI and VGA ports for added convenience in traditional PC environments. In addition, ViewSonic's SuperClear® image enhancement technology delivers superior colour performance with excellent colour reproduction, while a 50M:1 MEGA Dynamic Contrast Ratio and integrated stereo speakers provide great multimedia and entertainment performance. Additional features include Eco-mode for increased energy savings, as well as a 100x100mm VESA mount for more flexible

installation options. A premium design includes a frameless edge-to-edge glass faceplate and slim bezel beneath the glass, making the VX2363Smhl-W a stylish addition to any desktop.

Full HD 1080p for Superior Pixel Performance

The ViewSonic VX2363Smhl-W features Full HD 1920x1080 resolution for unbelievable pixel-by-pixel image performance. You'll experience the most amazing clarity and detail whether it be while gaming or enjoying the latest in multimedia entertainment. A 16:9 widescreen ratio minimizes eye fatigue even after hours of playtime, and is perfectly compatible with multi-window viewing without toggling.

MHL functionality for easy connection to mobile devices

Integrated with Mobile High-Definition Link (MHL), the VX2363Smhl-W enables users to connect compatible mobile devices, such as smartphones and tablets, directly to the VX2363Smhl-W display. This allows digital content from mobile devices to be viewed in stunning Full HD resolution on the larger screen of the VX2363Smhl-W, while also simultaneously charging the batteries of the mobile device.

SuperClear® Image Enhancement Technology with wide viewing angles

SuperClear® Image Enhancement Technology delivers the best colour performance and extends display viewing angles to 178 degrees both horizontally and vertically. Experience accurate and vivid colours with consistent levels of brightness whether looking at the screen from above, below, the front, or the side—with no colour distortion or decay.

ViewSonic Flicker-Free viewing for improved eye comfort

FLICKER FREE

ViewSonic flicker-free displays deliver on the promise of more comfortable viewing. ViewSonic flicker-free technology nearly eliminates screen flickering at all brightness levels by providing a constant LED light source. This lets you work at your computer, play games, or watch movies longer – without eye fatigue. Care for your eyes with ViewSonic flicker-free technology!

ViewMode settings for digital content

Enjoy excellent performance and accurate colour rendering for everything you view on this display. With 5 different scenario presets, ViewSonic displays offer best-in-class calibration techniques to bring you the best digital viewing experience. This includes Game, Movie, Web, Text, and Mono presets to enhance black levels in games and movies, colour luster for online images, and colour temperature for reading text.

Blue light filter for more comfortable viewing

Prolonged exposure to certain levels of blue light can cause eye discomfort. ViewSonic displays feature a Blue Light Filter setting that allows users to adjust the amount of blue light emitted from the screen, enabling longer viewing times and increased eye comfort for work and multimedia applications.

ClearMotiv® II ultra-fast 2ms response times for blur-free action

ViewSonic's exclusive ClearMotiv® II imaging technology delivers ultra-fast 2 millisecond liquid crystal response times, creating smooth images without streaking, blurring or ghosting. This blazing-fast response time is perfect for the most graphic-intense gaming needs, and just as great for watching sports or action movies. With ViewSonic's VX2363Smhl-W, experience digital broadcast-quality, full-motion graphics with razor-sharp images that never blur.

Sleek Frameless Bezel Design

The distinctive and stylish ViewSonic's VX2363Smhl-W fuses a frameless bezel design into simple black glossy design, to provide users a seamless display.

Energy-Saving LED Backlight with a long lifespan

The VX2363Smhl-W utilizes an energy-saving LED backlight that consumes 35% less power than conventional CCFL backlight displays, and has an extended lifespan of up to 30,000 hours. This provides for a lower overall cost of ownership, along with a higher ROI, making this display a great long-term investment.

Eco-mode conserves more energy and cuts costs

ViewSonic's proprietary Eco-mode energy-saving feature is built into all LED displays, offering "Optimize (75%)" or "Conserve (50%)" settings that save up to 25% in electricity costs. In low ambient light, Eco-mode adjusts brightness and improves visibility, while reducing eye fatigue. With Eco-mode, the lifespan of the LED backlighting is also greatly increased.

Dual HDMI Inputs for Diverse Full HD Connectivity

HDMI is the highest, future-proof video standard, guaranteed for true digital picture clarity. Equipped with two sets of HDMI inputs, the VX2363Smhl-W display allows you to connect to a variety of HD devices including gaming consoles, Blu-ray players, laptop PCs, digital cameras, and many others for the ultimate true high-definition experience.

Dual integrated stereo speakers

The ViewSonic VX2363Smhl-W has two integrated 1.5W stereo speakers for enhanced multimedia performance with crystal-clear stereo sound.

VESA-Mountable

The ViewSonic VX2363Smhl-W features a 100 x 100mm VESA-mountable design that allows you to mount the display on a monitor stand or on a

wall, depending on your specific needs. You can easily detach the base by unscrewing four screws and then mounting the display on its new stand or wall mount.

Technical Specifications

LCD	Type	23" diagonal color active matrix TFT LCD (AH-IPS Panel)
	Display Area	23 inch
	Optimum Resolution	1920x1080
	Contrast Ratio	1000:1 (typical), 50M:1 (maximum)
	Brightness	250 cd/m ² (typ)
	Viewing Angles	178°/178° (typ)
	Response Time	2ms
	Panel Surface	Anti-Glare type, Hardness 3H
	Light Source	30,000 Hrs
	Colors	16.7 M (6-bit + FRC)
Video Input	Analog	RGB Analog (75 ohms, 0.7 / 1.0 Vp-p)
	Digital	HDMI (TMDS, 100ohms)
	Frequency	Fh: 24-82KHz; Fv: 50-75Hz
	Sync	Separate Sync/Composite Sync/Sync on Green
Compatibility	PC	PC Compatibles (VGA up to 1920x1080 Non Interlaced)
	Mac	Power Mac (up to 1920x1080)
Connector	Analog	15-pin mini D-sub x1
	Digital	HDMI x1, HDMI/MHL x1
	Audio	Out: 3.5mm plug x1; In:3.5mm plug x1
	Power	External Adapter , 3-pin plug (CEE22) x1
Audio	Speakers	1.5 Wx2
Power	Voltage	AC 100-240V (Universal); 50/60 Hz
	Consumption	21W; Optimize:18W; Conserve:15W
Operating Conditions	Temperature	32°F ~ 104°F / 0°C ~ 40°C
	Humidity	10% to 90% (no condensation)
Dimensions	Physical	531.9mm (width) x 405.8mm (height) x 164mm (depth)
Weight	Net	3.2 kg
