WIDE VIEWING
ANGLE

The ViewSonic VA2265S is a 22" (21.5" viewable) widescreen monitor with an LED backlight and glossy, thin-bezel design ideal for use in the home or at the office. With Full HD 1920x1080 resolution, 3000:1 static contrast ratio, and SuperClear® VA technology, the VA2265S delivers stunning brightness and contrast with amazing screen performance at nearly any viewing angle. ViewSonic's exclusive ViewMode provides intuitive presets to deliver optimized screen performance in different applications. In addition, Flicker-Free technology and a Blue Light Filter help to eliminate eye strain from extended viewing periods. Paired with versatile input options including DVI and VGA, the VA2265S allows flexible connection to PC systems, laptops and other multimedia devices. A VESA-mountable design offers additional mount flexibility.

**Full HD 1080p for Superior Pixel
Performance**

SuperClear® Image Enhancement Technology with Wide Viewing Angles

SuperClear® Image Enhancement Technology delivers the best color performance and extends display viewing angles to 178 degrees both horizontally and vertically. Experience accurate and vivid colors with consistent levels of brightness whether looking at the screen from above, below, the front, or the side—with no color distortion or decay.

This monitor features Full HD 1920 x 1080 resolution for unbelievable pixel-by-pixel image performance. You'll experience the most amazing clarity and detail whether it be while working, gaming, or enjoying the latest in multimedia entertainment.

ViewMode Settings for Digital Content

With five intuitive scenario presets, ViewSonic's unique ViewMode feature offers best-in-class screen calibration for accurate color rendering and excellent performance. "Game," "Movie," "Web," "Text," and "Mono" presets enhance gamma curve, color temperature, contrast, and brightness to deliver an optimized viewing experience for different screen applications.

ViewSonic Flicker-Free Viewing for Improved Eye Comfort

ViewSonic flicker-free displays deliver more comfortable viewing. Rather than using Pulse Width Modulation that continuously turns the LED backlight on and off, ViewSonic flicker-free displays use DC modulation backlights that maintain a steady stream of direct current power—nearly eliminating screen flickering at all brightness levels by providing a constant LED light source.

Blue Light Filter for More Comfortable Viewing

ViewSonic displays feature a Blue Light Filter setting that allows users to adjust the amount of blue light emitted from the screen, enabling longer viewing times and increased eye comfort for work and multimedia applications. It offers 100 levels of blue light filtering to relax users' eyes and adapt to all your daily digital activities.

Better Color Depth with 3000:1 Static Contrast Ratio

An ultra-high static contrast ratio of 3000:1 offers a wider range of grayscale to show deeper, richer colors with more visible details in shadows and highlights. With a ratio 3-times higher than standard panels, this monitor can display vivid and realistic images for photo editing, watching movies, or any multimedia application.

Normal

3000:1 Static Contrast Ratio

Mercury-Free LED Backlighting

LED backlighting not only enhances monitor performance, delivers an outstanding color range, and adjusts contrast ratios for remarkably detailed images, but it's also eco-friendly, mercury-free, and uses less energy than conventional monitors.

Eco-mode Conserves More Energy and Cuts Costs

ViewSonic's proprietary Eco-mode energy-saving feature is built into all ViewSonic LED monitors. Eco-mode adjusts brightness and improves visibility, while reducing eye fatigue and prolonging the monitor's lamp life. With Eco-mode, the lifespan of the LED backlighting is also greatly increased.

Dual International Energy Certification

VA2265S complies with a current Energy Star 6.0 eligibility criterion which is an international standard for energy-efficient consumer products, originated by EPA (Environmental Protection Agency) in the United States. Meanwhile, this model meets the

VESA-Mountable

The ViewSonic VA2265S features a 100 x 100mm VESA-mountable design that allows you to mount the display on a monitor stand or on a wall, depending on your specific needs. You can easily detach the base by unscrewing four screws and

MEPS (Minimum Energy Performance Standards) with a 6-star, certified by Australia. VA2265S is definitely a monitor with great efficiency that meets stringent energy-efficient requirements globally.

then mounting the display on its new stand or wall mount.

Technical Specifications

LCD	Type	21.5" Wide Color TFT LCD (Panel Type – VA panel)
	Display Area	21.5 inch
	Optimum Resolution	1920x1080
	Contrast Ratio	3000 :1
	Brightness	250 cd/m ² (typ)
	Viewing Angles	178° / 178° (typ)
	Response Time	5.3ms?G delta?
	Panel Surface	Anti-Glare type, Hardness 3H
	Light Source	40,000 Hrs (Min)
	Colors	16.7M
Video Input	Analog	RGB Analog (75 ohms, 0.7 / 1.0 Vp-p)
	Digital	DVI-D (TMDS, 100ohms)
	Frequency	Fh: 24-82KHz; Fv: 50-75Hz
	Sync	Separate Sync
Compatibility	PC	VGA up to 1920x1080 Non Interlaced
	Mac	Power Mac up to 1920x1080
Ergonomics	Tilt	20° ~ -5°
Connector	Analog	VGA x1 (DB-15)
	Digital	DVIx1
	Power	Internal Power Board , 3-pin plug (CEE22) x1
Power	Voltage	AC 100-240V (Universal); 50/60 Hz
	Consumption	22W (typ); Optimize:17W (typ); Conserve:13W (typ)
Operating Conditions	Temperature	32°F to 104°F (0°C to 40°C)
	Humidity	10% to 90% (no condensation)
Dimensions	Physical	510.69mm (width) x 387.61mm (height) x 193.14mm (depth)
Weight	Net	3.6 kg
Regulations		CE, CB, RoHS, TCO, Erp, WHQL, Windows 8, Windows 7, BSMI, Green Mark, PSB, C-tick, MEPS, CLC, Energy Star 6.0, EPEAT Silver
Wall Mount		VESA® 100x100 mm
